Could using a planner have a significant impact on my student?

“Having a planner gives students freedom to plan, organize and keep track of their work to the best of their abilities and requirements. This has a dual benefit in that it increases the student’s accountability to the commitments planned as well as provides them with a structure that contributes to their success.”

When Students use a planner in the classroom it can:

1. Improve Organization (helping to reduce stress)
2. Track Achievements (great for goal setting)
3. Enhance Student Responsibility (commitments are written and not forgotten)
4. Promotes Communication (parents can use planners as doors to talk about upcoming tests/projects and/or commitments)
